

**Competencies: Clinic**

This shows your progress in acquiring desired learning skills

**Assessed levels of competency** – To successfully pass the course, you **must meet or exceed** competent levels clinical performance in at least the final two months of your clinical placement.

Your levels of competency may not exactly correlate with the course grade you earn.

**E = Exemplary** – The work meets all exemplary or mostly exemplary and some competent criteria. A student performing **exemplary work** is ready to represent clients with minimal supervision

**C = Competent** - The work meets all competent or mostly competent and some exemplary criteria. A student performing **competent work** would need some input from a supervising attorney before the student was ready to represent clients.

**D = Developing** - The work has one or more areas that do not yet meet competent criteria. A student performing work at this level needs to develop additional knowledge, skills or values to be competent. On a job, the work would not be helpful and a supervising attorney would need to start over or fix mistakes.
